### ARTICLE I ANTHEM PARK FEE STRUCTURE

- (l) The annual user fee for persons not owning property within the District is \$3,500.00. This fee must be paid in full at the time of completion of the Non-Resident Club Member application and the corresponding agreement. This Fee will cover membership to all Amenity Facilities for one (l) full year from the date of receipt of payment by the District. Each subsequent annual membership fee shall be paid in full on the anniversary date of application for membership. Such fee may be increased, not more than once per year, by action of the Board of Supervisors, to reflect increased costs of operation of the Amenity Facilities; such increase may not exceed ten percent (10%) per year. This membership is not available for commercial purposes.
- (2) Two (2) Facility Access Cards will be issued to each owning entity within the District for Resident Members and non-resident fee paying entity for Non-Resident Members. There is a \$20.00 charge to replace lost cards or to purchase additional cards. The maximum number of Facility Access Cards any one household can hold at any time is two.
- (3) The number of guests allowed to use District facilities at any one time is as follows:
  - a. Swimming pool, fitness center, volleyball court, tennis court, and basketball court:
    - 8am to 12 noon daily: maximum of four (4) guests per Patron household;
    - 12 noon to close: maximum of two (2) guests per Patron household;
  - b. Amenity Center and Parks no limit on number of guests.
- (4) All Guests shall register with the Anthem Park Staff and must be accompanied by a Patron at all times while using District Facilities.
- (5) All persons renting or leasing a residential unit from persons owning a residential unit in the District are responsible for obtaining Facility Access Cards from the unit owner. Renters/lessees will not be issued additional Facility Access Cards or Annual Guest Cards at no cost; however they would have the ability to pay the annual user fee applicable to persons not owning property within the District.
- (6) The owner of the unit is responsible for returning the cards once the lease agreement has ended with the renter/lessee.

# Everything a Lake Should Be

October 24, 2018

Ms. Patricia Comings-Thibault Anthem Park CDD c/o DPFG Management and Consulting, LLC 250 International Parkway, Suite #280 Lake Mary, Florida 32476

### VIA EMAIL: patricia.comings-thibault@dpfg.com

Dear Ms. Comings-Thibault:

At your request, on October 17, 2018, we surveyed the lakes at Anthem Park CDD. We recommend that this integrated Aquatic Systems, Inc. program of waterway management be initiated as soon as possible:

Algae Management. Please recognize that some algae is of benefit to the water quality and food chain, enhancing the total ecosystem.

Management of all existing noxious aquatic weeds growing in the waterway.

Scheduled inspections, with treatment as necessary, to prevent growth of new aquatic weed species through introduction by drainage or other natural processes.

Management of the shoreline grasses growing in the water to the water's edge.

Triploid Grass Carp may be utilized by Aquatic Systems, Inc. for control of certain submerged aquatic weeds. These fish will be stocked, pending regulatory approval, if Aquatic Systems, Inc. determines them to be beneficial. No additional charges for permitting, barrier installation or stocking will be invoiced to customer, unless specified on the face of the enclosed contract.

This program requires steel fish containment barrier(s) that meet or exceed Florida Fish and Wildlife Conservation Commission permit requirements to possess and stock sterile triploid grass carp for aquatic weed control.

Establishment of a professional reporting system for property management administration.

Kindly sign the contract and return to us as soon as possible, so we may schedule your program.

Ms. Comings-Thibault, a waterway system thrives on the oxygen-producing and nutrient up-taking properties of its plant life. It is the intent of Aquatic Systems, Inc. to provide an ecological balance so that both the waterway ecosystem, including fish, animal life, and neighboring community can benefit.

If you have any questions, please do not hesitate to contact me at 1-800-432-4302.

We look forward to serving Anthem Park CDD!

Sincerely,

Eric C. Mueth Sales Manager/Biologist ECM/sd

# Our Commitment to Responsible Lake Management

Aquatic Systems has been effectively managing Florida lakes, ponds, wetlands and uplands using targeted treatments based on scientific research for over 40 years. Headquartered in Pompano Beach and operating throughout the state of Florida, we are committed to the restoration and maintenance of naturally occurring freshwater lakes and ponds, man-made storm water/pollution retention ponds, wetlands and preserves.

### Our Commitment to You

We believe that forming long-lasting partnerships with our customers is key to attaining beautiful, healthy waterways for all to enjoy.

### You can expect us to:

- Respond to all calls within 48 hours, our average is 97% response in under a day
- Deliver detailed reports after every visit
- Be available for board or community meetings to give presentations or just answer questions
- Propose and promote methods that are better for the environment and more cost effective over time

### **Environmental Mission**

We hire degreed biologists with the knowledge and experience to continuously assess and make recommendations based upon the conditions present each time they enter your property for service.

In addition to the tests we run for customers, our team of scientists engage in ongoing research to learn why existing treatments are not always effective. Our goal is to find environmentally sound treatments that overcome this growing problem in the challenging Florida environment.

We use the observations of our service teams and the research from our labs to find and promote earthfriendly products and methods to treat both common and challenging water problems.

# Your Personal Lake & Wetland Management Team

# Aquatic Management Programs

### Working in Florida Waterways Since 1977

Our beautiful Florida environments! We work and live in them every day! Aquatic Systems restores and maintains ponds, lakes, wetlands and preserves. Our exceptional results stem from using balanced and ecologically-compatible technologies.

### Algae and Aquatic Weed Control

- Treatments targeted to the specific algae or plant in each water body
- Ongoing research to determine the underlying causes of overgrowth
- · Scheduled treatments with management reporting
- · Degreed, state certified and licensed aquatic technicians

### Wetland and Upland Mitigation Services

- Design, creation and restoration of natural areas
- · Exotic plant control and removal
- · Mitigation management and government reporting
- Compliance violation correction services
- State certified and licensed natural areas field technicians

### Midge Fly and Mosquito Control

- Treatment for year-round control of nuisance organisms: swarming midge flies, mosquito larvae, leeches and more
- State licensed and insured in public health pest control

### Aquatic Lab and Field Testing and Research

- Experienced field biologists for field testing
- In-house labs for water quality testing and algae identification
- Aquatic weed science research lab to find better treatments
- · Bathymetric mapping
- · Easy to understand reports
- Staff biologist available for your questions

### Vertex Lake Aeration and Floating Fountains

- Sales, installation, service and repair by well-trained technicians of:
  - Bottom diffused aeration systems to improve overall water quality
  - Custom design/build of floating fountains up to 60 horsepower with spectacular display heights from 10' to 100'

### **Fisheries Management**

- Triploid grass carp to help control aquatic weeds
- Redear and bluegill help control midge flies
- Sport fish including largemouth bass, catfish and bluegill

## Assessment Services

## Lake Water Quality Testing and Research Services

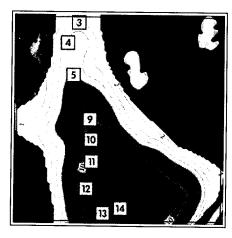

Aquatic Systems has a fully staffed, in-house laboratory to provide complete water testing services to our clients. Laboratory data have many uses; including determining suitability of water for recreation or for irrigation. All water chemistry and bacteria test reports include full explanations and an aquatic biologist is available at our laboratory to answer all your questions.

The team, shown below, consists of the top professionals in lake science and experienced regional biologists who receive ongoing training to perform all tests to the highest standards.

### FIELD ASSESSMENT SAMPLING

From identifying potential source points for excessive nutrients to oxygen and temperature levels; your assessments are performed by our highly trained field biologists.

### **BATHYMETRIC LAKE MAPPING**

How deep is your lake? How thick is the vegetation? A 3-D map of the lake will help us treat the water more efficiently and/or specify the most effective aeration system.

### WATER QUALITY LAB

Water is more than H<sub>2</sub>O. It is comprised of a multitude of nutrients and particulates. Our lab scientists can perform over 30 specialized tests to determine your water's true chemistry.

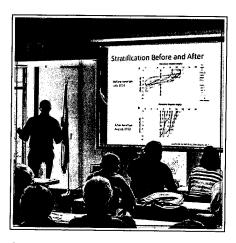

### **ALGAE IDENTIFICATION LAB**

To treat the algae, it's important to know what type of algae you are having problems with. We can identify both the type of algae and whether or not it is toxic

### **AQUATIC PLANT AND ALGAE LAB**

Our in-house research lab studies difficult to control invasive species to find the most effective rate and types of treatments that minimize potential harm to the environment.

### **CONSULTING SERVICES**

Our experts are available for water resource management presentations, or to just answer questions at your meetings. Continuing Education Units (CEUs) are also available.

### Aquatic Systems, Inc.

Lake & Wetland Management Services Everything a Lake Should Be

2100 NW 33rd Street, Pompano Beach, FL 33069

Telephone: 1-800-432-4302 www.aquaticsystems.com

This Agreement made the date set forth below, by and between Aquatic Systems, Inc., a Florida Corporation, hereinafter called "ASI", and

Ms. Patricia Comings-Thibault **Aquatic Services Agreement Anthem Park CDD** c/o DPFG Management and Consulting, LLC One-Year Agreement - Automatic Renewal 250 International Parkway, Suite #280 Lake Mary, Florida 32476 (321) 263-0132, Ext. 4205 Month Service is to Commence: patricia.comings-thibault@dpfg.com

Date of this proposal: October 24, 2018 ECM-R-42

hereinafter called "Customer". The parties hereto agree as follows:

1. ASI agrees to manage certain lake(s) and/or waterway(s) in accordance with the terms and conditions of this Agreement in the following location:

Three lakes (8,050 total linear foot perimeter) located at Anthem Park CDD in Saint Cloud, Florida.

- 2. Minimum of TWELVE (12) inspections with treatment as required (approximately once every 30 days).
- 3. CUSTOMER agrees to pay ASI, its agents or assigns, the following sum for specified water management service:

#### Annual Maintenance Program:

Algae & Aquatic Weed Management Shoreline Grass Management to the Water's Edge Triploid Grass Carp Stocking & Permitting

Sites #1 through #3

Management Reporting

Included Included

As Required by ASI\*

Included

Total Program Investment

\$536.00

Monthly

### The above price is effective for 90 days from the date of this proposal.

### Additional Services:

One (1) Carp Barrier Installation/Fabrication

\$250.00

Per Barrier

### Terms & Conditions of Aquatic Services Agreement

- 1. If CUSTOMER does not directly own the areas where services are to be provided, CUSTOMER warrants and represents that he has control of these areas to the extent that he may authorize the specified services and in the event of dispute of ownership agrees to defend, indemnify and hold ASI harmless for the consequences of such services.
- ASI will be reimbursed by the CUSTOMER for administrative fees, compliance programs, invoicing or payment plans or similar expenses caused by requirements placed on ASI by the CUSTOMER that are not explicitly included in this contract's specifications.
- 3. This Agreement shall have as its effective and anniversary date the first day of the month in which services are first rendered to the CUSTOMER

<sup>\*</sup>Services performed at ASI's sole discretion for the success of the Waterway Management Program

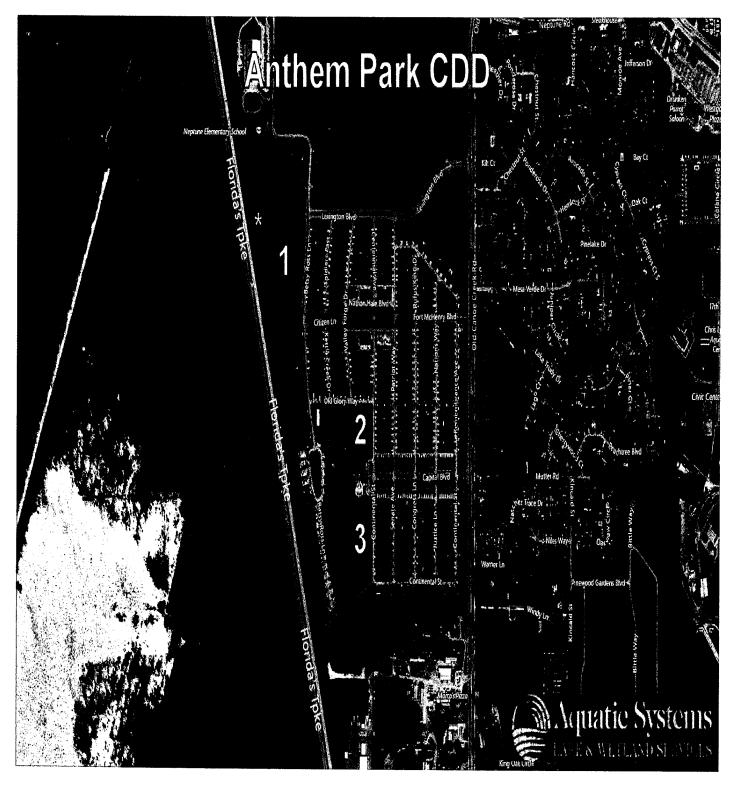

- 4. ASI, at its expense, shall maintain the following insurance coverage: Workman's Compensation (statutory limits), General Liability, Property Damage, Products and Completed Operations Liability, and Automobile Liability.
- 5. If at any time during the term of this Agreement the government imposes any additional regulatory permit requirements or fees, this Agreement may be renegotiated to include these changes and the cost of the additional services and/or fees.
- 6. Cyanobacteria identification and toxin testing are not included in this agreement. Cyanobacteria are common throughout Florida waterways and our algae management program cannot guarantee the absence, elimination or control of cyanobacteria and toxins. ASI shall in no event be liable to CUSTOMER, or others, for indirect, special or consequential damages resulting from the presence of cyanobacteria or cyanobacteria toxins in their waterbodies.
- 7. ASI is not responsible under any circumstances for flooding or water damage from fouled water level control structures resulting from ASI installing Carp Containment Barriers on the structures.
- 8. Payment terms are net 30 days from invoice date. All amounts remaining due and owing 30 days after billing by SELLER shall bear interest at the rate of 1.5% per month until paid in full. The CUSTOMER shall pay all costs of collection, including liens and reasonable attorney's fees. ASI may cancel this Agreement, if CUSTOMER is delinquent more than sixty (60) days on their account.
- 9. Upon the anniversary date, this Agreement shall automatically be extended for successive twelve-month periods, unless notice of non-renewal has been received by either party, in writing, at least thirty (30) days prior to the anniversary date. ASI may, with thirty (30) days' pre-notification, change pricing effective upon the next anniversary date.
- 10. If at any time during the term of this Agreement, CUSTOMER feels ASI is not performing in a satisfactory manner, CUSTOMER shall inform ASI, by certified mail, return-receipt requested, stating the reasons for CUSTOMER'S dissatisfaction. ASI shall investigate and attempt to cure the defect. If, after 30 days from the giving of the original notice, CUSTOMER continues to feel ASI performance is unsatisfactory, CUSTOMER may cancel this Agreement by giving 30 days notice ("Second Notice") to ASI and paying all monies owing to the effective date of termination.

11.	This Agreement constitutes the entire Agreement of the parties hereto and no oral or written alterations or modifications of the terms contained herein shall be valid unless made in writing and accepted by an authorized representative of both ASI and the CUSTOMER.

### **ANNUAL LAKE MANAGEMENT CONTRACT**

PROPERTY NAME: Anthem Park CDD

CONTRACT TERM: 1 Year SUBMITTED TO: Maria Agosta SUBMITTED BY: Marti Veatch

SPECIFICATIONS: Annual maintenance for 2 lakes: 3150 linear feet – 6.15 acres

### Lake Aquatic Weed Control:

- 1. Lake(s) will be inspected on a **one (1) time per month** basis during the months of **January through December**.
- 2. Any growth of undesirable aquatic weeds and vegetation found in the lake(s) with each inspection shall be treated and controlled through the application of aquatic herbicides and aquatic surfactants as required to control the specific varieties of aquatic weeds and vegetation found in the lake(s) at the time of application.
- 3. Invasive and unwanted submersed and floating vegetation will be treated and controlled preventatively and curatively each spring and early summer through the use of systemic herbicides at the rate appropriate for control of the target species. Application rates will be designed to allow for selective control of unwanted species while allowing for desirable species of submersed and emergent wetland plants to prosper.

### Shoreline Aquatic Weed Control:

- Shoreline areas will be inspected on a one (1) time per month basis during the months of January through December.
- Any growth of cattails, phragmites, or other unwanted shoreline vegetation found within the lake areas shall be treated and controlled through the application of aquatic herbicides and aquatic surfactants as required for control of the plants present at time of application.
- 3. Any growth of unwanted plants or weeds growing in areas where stone has been installed for bank stabilization and erosion control shall be treated and controlled through the application of aquatic herbicides and aquatic surfactants as required to control the unwanted growth present at the time of application.

### **Buffer Management:**

 Buffer vegetation will be selectively treated as required to limit any growth of unwanted vegetation and to maintain the beneficial aquatic and upland

vegetation found within the buffer areas along the edge of the lake. This service is provided in order to maintain the lake buffers in a natural, yet desirable appearance. Buffer vegetation height and density will be encouraged to help prevent nuisance goose and other wildlife from utilizing the lake, as well as providing the necessary erosion control and reduction of nutrients necessary for the overall health and sustainability of the lake.

### Water Quality Monitoring:

 Lake water samples will be taken and tested one (1) per year for the following parameters:

Temperature

Dissolved Oxygen

На

The results of the tests along with recommendations and analysis of the results will be provided to the client in a written report following each testing period.

2. Any data collected that needs immediate action to resolve an issue will be brought to the client's attention at once.

### Lake Algae Control:

- Lake(s) will be inspected on a one (1) time per month basis during the months of January through December.
- 2. Any algae found in the lake(s) with each inspection shall be treated and controlled through the application of algaecides, aquatic herbicides, and aquatic surfactants as needed for control of the algae present at the time of service.

### Service Reporting:

 Client will be provided with a monthly service report detailing all of the work performed as part of this contract.

### General:

- 1. Contractor is a licensed pesticide applicator in the state in which service is to be provided.
- 2. Individual Applicators are Certified Pesticide Applicators in Aquatics, Public Health, Forestry, Right of Way, and Turf/Ornamental as required in the state in which service is to be provided.
- 3. Contractor is a SePRO Preferred Applicator and dedicated Steward of Water. Each individual applicator has been trained and educated in the water quality testing and analysis required for site specific water quality management prescriptions, and utilizes an integrated approach that encompasses all aspects of ecologically balanced management. Each applicator has received extensive training in the proper selection, use, and application of all aquatic herbicides,

- algaecides, adjuvants, and water quality enhancement products necessary to properly treat our clients' lakes and ponds as part of an overall integrated pest management program.
- 4. Contractor guarantees that all products used for treatment are EPA registered and labeled as appropriate and safe for use in lakes, ponds, and other aquatic sites, and are being applied in a manner consistent with their labeling.
- 5. All pesticide applications made directly to the water or along the shoreline for the control of algae, aquatic weeds, or other aquatic pests as specified in this contract will meet or exceed all of the contractor's legal regulatory requirements as set forth by the EPA and related state agencies for NPDES and FIFRA. Contractor will perform treatments that are consistent with NPDES compliance standards as applicable in and determined by the specific state in which treatments are made. All staff will be fully trained to perform all applications in compliance with all federal, state, and local law.
- 6. Contractor will furnish personnel, equipment, boats, materials, and other items required to provide the foregoing at his expense.
- 7. Contractor will maintain general liability and workman's compensation insurance.
- 8. Client understands and acknowledges that there are irrigation restrictions associated with many of the products used to treat their lakes. The client is responsible for notifying the contractor in advance of the contract signing and the start of the contract treatment if they utilize any of the water in their lakes for irrigation purposes. The client accepts full responsibility for any issues that may arise from the irrigation of turf, ornamentals, trees, crops, or any other plants as a result of treated water being used by the client for irrigation without the consent or knowledge of the contractor.
- Although there is rarely direct fish toxicity with the products used for treatment when applied at the labeled rate, any time there is an extreme infestation of algae and aquatic weeds, there is a risk of dissolved oxygen drops as a result of large masses of algae and aquatic weeds dying and decomposing simultaneously. This risk is most severe in times of extremely hot weather and warm water temperatures, as these are the conditions during which dissolved oxygen levels are naturally at their lowest levels. Often lakes will experience natural fish kills under these conditions even if no treatment is performed. Every effort, to include the method and timing of application, the choice of products, and the skill and training of the applicators is made to avoid such problems. This risk is especially mitigated by the use of systemic herbicides wherever possible, which results in a very slow steady control of the target weed species. However, the client understands and accepts that there is always a slight risk of the occurrence of adverse conditions outside the control of the contractor that will result in the death of some fish and other aquatic life. The client also understands and accepts that similar risks would remain if the algae or submersed invasive vegetation present in the lake goes uncontrolled, as it will over time interfere with the health and well-being of the existing fish population. The client agrees to hold the contractor harmless for any issues with fish or other aquatic life which occur as described above, or are otherwise outside the direct

- control of the contractor, unless there is willful negligence on the part of the contractor.
- 10. Contractor shall be reimbursed by the client for any non-routine expenses, administrative fees, compliance fees, or any other similar expense that are incurred as a result of requirements placed on the contractor by the client that are not covered specifically by the written specifications of this contract.
- 11. The term of this agreement is for a period of twelve (12) months, with payment to be made in twelve (12) equal monthly payments due by the last day of each month. As a courtesy, the client will be invoiced on the first day of each month, reminding them that a contract payment is due by the end of that same month. The client is obligated to pay each monthly contract payment per the terms of this contract, without any obligation on the part of the contractor to invoice or send any other sort of reminder or notice. The Annual Contract Price is based on the total value of services to be provided over a period of twelve (12) months. For the convenience of the client, we offer Monthly Contract Pricing that is simply an even twelve (12) month amortization of the Annual Contract Price. Due to the seasonality of these services, and the disproportionate amount of time and materials dedicated to providing these services during some times of the year as compared to others, based on the season, weather patterns, and other natural factors, the amount billed and paid to date is not necessarily equivalent to the amount of work performed to date.
- 12. Contract will automatically renew annually at the end of the contract period for subsequent one (1) year terms, with a three percent (3%) escalation in the Annual Contract Price and Additional Enhancements each year, under the same terms, specifications, and conditions as set forth by this contract, unless either party gives written notice of cancellation thirty (30) days prior to the termination date of this contract, or subsequent renewal contracts.
- 13. The client agrees to pay penalties and interest in the amount of 2% per month for all past due invoices and related account balances in excess of 30 days past due from the due date as specified by the contract and as stated on the relevant invoice presented to the client.
- 14. The client covenants and agrees to pay reasonable attorney's fees and all other related costs and expenses of SŌLitude Lake Management® for collection of past due invoices and account balances and for any other actions required to remedy a material breach of this contract.

### **FOUNTAIN MAINTENANCE CONTRACT**

PROPERTY NAME: Anthem Park CDD

CONTRACT TERM: 1 Year SUBMITTED TO: Maria Agosta SUBMITTED BY: Marti Veatch

SPECIFICATIONS: Annual Fountain Maintenance Contract – Quarterly – Two 10hp fountains

### Fountain Maintenance Service:

 Contractor will service each of the fountains four (4) times per year on a once per quarter basis as follows:

Perform Amp test on the motor to verify appropriate amp load.

Check incoming and outgoing Voltage.

Test Motor GFCI Protection Breaker.

Test Contactor (starter).

Test motor overload protection to make sure it is set and functioning properly. Check fuses.

Make sure all wires, breakers, and other electronic parts are securely attached Check timer and set as needed.

Test Lighting GFCI breaker in the control panel to make sure it is operating properly.

Check lighting timer and set as needed.

2. If the fountain or lights are not visibly operating properly, or malfunctioning in any way as determined by the diagnostic checks specified above, the contractor will further perform the following:

Perform ohm test to cable to test for any shorts or resistance in the power cable between the control panel and the motor.

Inspect motor shaft to make sure it is not bent and that it is turning smoothly and quietly.

Inspect propeller or impeller (depending on what type unit) and diffuser plate (if present) to make sure they are tightly attached and not bent or damaged in any way.

Clean fountain's debris screen nozzle, shaft, and pump chamber ensure proper water flow.

Clean all lighting lens covers.

Check each light and replace lamps that have burnt out.

Replace any seals on light housing which are leaking.

- 3. All replacement parts required for proper maintenance of the fountains and the additional labor required to replace these parts as needed will be billed as an additional charge.
- 4. All lights, seals, other replacement parts, and labor required for light replacements will be billed as an additional charge.
- 5. All necessary repairs (parts & labor) covered by warranty will be performed at no additional charge to the client.
- 6. Any significant problems or malfunctions that are discovered during the maintenance service that are not able to be repaired during that service, which are no longer under warranty, and that will require significant additional labor and/or parts, will be written up and submitted to the client for his / her approval prior to proceeding with the work.

### Service Reporting:

1. Client will be provided with a monthly service report detailing all of the work performed as part of this contract.

### **General**:

- 1. Contractor is a licensed pesticide applicator in the state in which service is to be provided.
- 2. Individual Applicators are Certified Pesticide Applicators in Aquatics, Public Health, Forestry, Right of Way, and Turf/Ornamental as required in the state in which service is to be provided.

### Lake Management Agreement

This agreement is made between Lake and Wetland Management, Inc., and:

October 8, 2018

Maria Agosta
Facility Manager
Anthem Park CDD
2090 Continental St.
St. Cloud, FL 34769

Phone: (407) 556-2202 anthemparkcdd@gmail.com

Both Anthem Park CDD (CUSTOMER) and Lake and Wetland Management (LWM) agree to these terms and conditions for Special Service Agreement:

#### Description:

- **A. Fountain management service** including preventative cleaning and maintenance for two (2) units.
- LWM shall provide all supervision, labor, cleaning supplies, equipment, materials and incidentals necessary for the maintenance event.
- LWM will visit the site quarterly with cleaning as necessary to keep the fountain operating at optimum performance. A minimum of four (4) visits will be performed annually.
- Preventative cleaning including the following; exterior pump intake screen, cleaning and adjusting nozzles/jets as needed, clean/polish light lenses and visible surface of fountain float, lights checked to insure proper functionality, inspect time clocks/photo cells to insure they are functioning properly (reset as needed), check anchor lines, examine all relays and contacts, meter test motor and light cables for proper amp draw, dissemble the parts needed to clean the orifice impediments on the display heads, jets and rings.
- No parts, or repairs are included in this agreement. Parts and repairs will be billed separate on a time, and materials basis.
- A comprehensive service report will be submitted detailing work performed upon completion of each service visit.
- Provided the fountain goes down, fountain diagnosis will be free of charge with a current lake maintenance contract.

**Total Investment: \$ 200.00/Quarter** 

### Conditions:

- 1. Ownership of property is implied by CUSTOMER with acceptance of this Agreement. In the event that CUSTOMER does not expressly own the areas where the above stated services are to be provided, CUSTOMER represents that express permission of the owner is given and that authorization to commence the above-mentioned services is allowed. In the event of dispute of ownership, CUSTOMER agrees to hold harmless LWM for the consequences of such services.
- 2. LWM shall not be responsible for acts beyond its reasonable control, including adverse soil and / or water conditions, adverse weather conditions, unavailable materials, Acts of God, war, acts of vandalism, theft or third party actions. CUSTOMER further states that neither party shall be responsible in damages or penalties for any failure or delay in performance of any of its obligations caused by above named incidences.
- 3. Invoices submitted for work completed shall be paid within 30 days of receipt. A finance charge of 1.500% per month or an annual percentage rate of 18.000% will be computed on all past due balances.
- 4. Any incidental activity not explicitly mentioned in this proposal is excluded from the scope of work.
- 5. This proposal shall be valid for 30 days.
- 6. If LWM is required to enroll in any third-party compliance programs, invoicing or payment plans that assess fees in order to perform work for CUSTOMER, those charges will be invoiced back to CUSTOMER as invoiced to LWM.
- 7. LWM will maintain insurance coverage, which includes but is not limited to; General Liability Property Damage, Automobile Liability, and Workman's Compensation at its own expense.
- 8. No alterations or modifications, oral or written, of the terms contained above shall be valid unless made in writing, and wholly accepted by authorized representatives of both LWM and the CUSTOMER.

Customer acceptance – The above prices, specifications and conditions are hereby accepted.
